Clay lamps from the Kvarner region (Croatia) – a reassessment of know data

Ana Konestra, Ivana Ožanić Roguljić
INSTITUTE OF ARCHAEOLOGY, Zagreb

METHODOLOGY

1. published material
2. recent finds/published or to be published
3. recent museum discoveries

FINDS PROVENENCE:

- necropolis
- settlements (Fulfinum, Rijeka)
- unknown/chance finds
- pottery workshop (Crikvenica)

INSTITUTIONS:

- Archaeological museum (Zagreb)
- History and seafaring museum (Rijeka)
- Crikvenica city museum
- Senj city museum
- Franciscan monastery on Košljun (Krk island)
- Krk diocese (Krk island)
- JANAF (Adriatic oilpipe)
- Osor archaeological collection (Cres island)
- private collections

PUBBLICAZIONI:

VIKIĆ-BELANČIĆ: Lucerne dal Museo Archeologico di Zagreb (1972, 1976)

DAUTOVA-RUŠEVLJAN: Lucerne dal Museo di Storia e Nautica di Rijeka (1970)

BEKIĆ, VIŠNJIĆ: La necropoli di s. Marco sud, Baška, isola di Krk (2008)

DAUTOVA RUŠEVLJAN: La collezione Bolf - materiale dalla necropoli di Kurilovo (Omišalj, isola di Krk) (1974)

DUGOJNIĆ: Rinvenimenti subacquei in area Quarnerina (2010)

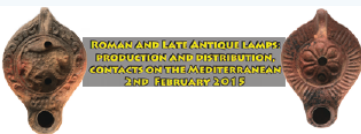

FADIĆ: Materiale da alcune sepolture di Senj (1999)

GLOGOVIĆ: Rinvenimenti sporadici dai dintorni di Baška (isola di Krk) (1989)

LJUBOVIĆ: Materiale da alcune sepolture da Senj (2008)

PERCAN: Ceramica fine dallo scavo della *Principia* di Tarsatica (Rijeka) (2009)

STARAC: Gli scavi condotti a Jadranovo tra 1993 e il 2000 (2002)

CLAY LAMPS FROM THE KVARNER REGION (CROATIA) - A REASSESSMENT OF KNOWN DATA

Lucerne fittili dall'area del Quarnero (Croazia) - revisione dei dati noti

METHODOLOGY - PROBLEMS

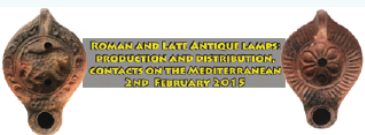

1. Dated publications
2. Imprecise publications
3. Impossibility to assess findspot
4. Impossibility to assess holders
5. Lack of illustrations/imprecise illustrations
6. Lots of known but unpublished finds
7. IMPOSSIBILITY TO REVIEW ALL FINDS IN PERSON

DATA MANAGEMENT CHOICES:

- find's revision based on new publications
- assigning of finds (where possible) to types based on publications from Aquileia (Di Filippo Balestrazzi - DFB, Buchi)
- broad chronologies (impossibility to review all finds or contexts)

RESULTS:

1. grouping of finds similar by shape, decoration and topography
- GENERAL OVERVIEW
2. highlighting of problems due to lack of field research, lack of publications
- FINDING GAPS
3. statistics that are reductive for the finds present in the region, but exhaustive as far as regarding published finds
- PRELIMINARY RESEARCH
4. use of shape and decorations typologies as much unambiguous as possible
- REVISION
